

ERASMUS STAY AT VEVU –SPECIAL NEEDS

To ensure that students/staff with special needs can take full advantage of the European mobility arrangements, the Erasmus programme pays particular attention to guidance, reception, physical accessibility, pedagogical and technical support services, and, especially, financing of the extra costs. Your Erasmus grant is higher than the normal study grant to offset the specific difficulties with which you are faced (such as physical access and the organization of your studies).

How to apply

Ask the Erasmus coordinator of your home university about the application procedure in your home country (application deadline, where you can obtain the application form, where to submit your application form etc.

Your home university or National Agency will assess your application and will decide on the additional amount you may receive.

Where to obtain further information?

You should also ask your National Agency to provide you with more information on specific issues that are of concern to you when planning your study period abroad.

The "European Agency for Development in Special Needs Education" provides a network of contact persons, appointed by the Ministries in each of the EU/EEA countries, who are available to answer questions and give advice on issues concerning special equipment and facilities for disabled students.

In general, your home university should ensure that the necessary arrangements are made.

To find out information on the sort of facilities available at VEVU before going abroad, please get into direct contact with Erasmus coordinator at VEVU – erasmus@vevu.hr.

Data protection

Personal data are confidential and will only be treated with regards to your application and participation in the Erasmus+ programme according to the national law.
